Pizza Book Report

The following is a guide for creating a pizza book report. You may choose your own paper and jazz it up however you choose.

Make your pizza look real by using different materials to look like toppings. Color or cover each piece of the pizza so there is little to no white showing and type or write extremely neat so it is easy to read.

You may write directly on the pizza or on other pieces of paper that are glued onto your pizza.

Be sure to include all of the necessary information on each slice of the pizza. Follow the example on the next page to guide you in creating your pizza book report.

Be neat! Be creative! Be detailed!
